

RP ROYAL DISTRIBUTION, S.L., is committed to ensure that the entire organization works in the same direction line seeking a continuous growth by developing new products, markets and incorporating new technological and productive improvements so to be adapted to the market needs.

For this purpose, the following principles are established as regards to:

FOOD SAFETY AND GLOBAL QUALITY

- Guarantee the safety and legal fulfillment of the products we manufacture, always working under the guidelines of the implemented HACCP system and under the FSSC22000 scheme.
- Satisfy the Customers offering them products adapted to their needs and expectations, fulfilling the acquired commitments, as well as an efficient service.
- Promote a continuous improvement of the processes and methods of action, complying with all safety and legal regulations.
- Maintain efficient and adequate facilities for the established purposes.

ENVIRONMENT

- Is committed to preserve the Environment through a rational use of the resources, preventing pollution derived from its activities and the life cycle of the products and complying at any time with the current legislation.

PEOPLE, SAFETY AND HEALTH

- Train and sensitize all staff in Quality, Food Safety, Environment and Health and Safety Prevention as basis of the quality and safety of our products.
- Will develop means to motivate workpeople, enhance their involvement and making them aware about the importance of their individual activities.
- Is committed to adopt measures and allocate the necessary resources to ensure compliance with the established standards of occupational hazards and safety in workplaces and facilities.

The Management assumes the above mentioned commitments, and based on them, establishes the objectives, reviewing them annually, and allocating the necessary resources for their correct execution.
